fast telesales

Want to take telephone sales orders?

Need to do it quickly?

Want instant information at your fingertips?

Our Fast Telesales module provides rapid no fuss order entry for Sage 50.

Look at clients previous orders quickly and easily on the same screen and repeat/edit as necessary. Provides the information to agree pricing accurately within seconds.

The system includes full credit card payment functionality with easy authorisation verifying the delivery address with the cardholders address. We securely pass your clients credit card details to Protix the UK's largest online card processor.

Integration...

The Fast Telesales Module provides back office integration with Sage 50. Advanced accounts software integration means orders are sent directly to your SOP (Sales Order Processing) system and retail sales via credit/debit cards are sent directly to your invoicing system.

The system provides automatic pricing based upon your predefined customer price lists. Once the order is completed it will update your Sage 50 sales order processing system so you can despatch the goods in line with you usual company procedures.

The Benefits...

- Fast information at your fingertips creates a professional image of your Company
- Save time processing orders – reduce costs
- Know an accurate sales margin at the press of a button when negotiating prices
- Functionality includes full Trade and Retail Capabilities
